

Pokini

Pokini Tab A8B/ A10B

Quick Start Guide

English

Tab A8B/A10B features, buttons & interfaces

Front

1	Ambient Light Sensor Recognizes the ambient light and adjusts the display brightness if enabled in the operating system
2	Front microphone outlet
3	Front camera 2MP camera for video conferencing
4	Camera Indicator LED Lights up if camera is activated and during device boot and shutdown
5	Charging indicator LED OFF not connected to charger ORANGE charging GREEN connected and fully charged RED charge fault
6	Second microphone outlet

Top side

7	On / Off Button Push it once to start the tablet; push it again to enable the sleep mode. Push and hold it to shut down the device.
8	Volume key Push the left side to reduce the volume, use the right side to increase the volume

Right and Bottom Side

9	Docking connector
10	USB-C for charging, data, audio and video
11	Stereo speakers

Back Side

12	NFC antenna position Can be used to read NFC & RFID tags
13	Camera flash LED
14	Rear camera 8MP camera for high resolution images & video
15	Battery lid

Replacing Battery / Adding SIM & memory card

Tab A8B

To replace the battery, take off the battery lid by pulling on the lid carefully. Pull on the battery holder hook (1) to the bottom of the device. Pull the battery up (2), and pull on the second battery holder hook (3).

For WWAN models only:

Enter the SIM card (if you have a device with modem) into the slot in the bottom right corner. Please make sure you have the SIM card in the correct direction (chip facing down). The memory card can be inserted on the left, please ensure you insert it in the right direction as shown on the picture.

When putting the battery back in place, please make sure both hooks have clicked and are safely secured. Ensure to put the battery lid in place securely.

Tab A10B

To replace the battery, take off the battery lid by pulling on the lid carefully. Pull on the battery holder hook (1) to the bottom of the device. Pull the battery up (2), and pull on the second battery holder hook (3).

For WWAN models only:

Enter the SIM card (if you have a device with modem) into the slot in the bottom right corner. Please make sure you have the SIM card in the correct direction (chip facing down). The memory card can be inserted on the left, please ensure you insert it in the right direction as shown on the picture.

When putting the battery back in place, please make sure both hooks have clicked and are safely secured. Ensure to put the battery lid in place securely.

Using the Tablet for the first time

1. Connect power supply for the first time and make sure battery is fully charged before disconnecting.
We recommend a charging dock or docking station to charge the tablet. If you use a USB-C wall charger, please ensure it has at least 18W and follows USB-C standard.
2. To turn the tablet on, press the power button once
3. Follow the instructions in the operating system to complete the setup

Troubleshooting

In case devices freezes and you need to do a hard reset, press and hold the power button for approx. 14 seconds. Device will be turned off now. Connecting USB3.0 devices while being connected to a WLAN network requires it to be a 5GHz connection to maintain it. 2.4GHz networks will be disconnected on the Tab A8B/A10B side while USB3.0 devices are in use.

Important Product and Safety information

- Do not drop, bend or twist your tablet. This can break tablet display glass, internal circuit boards or mechanics. If the glass breaks, do not touch the glass parts of the device or attempt to remove the broken glass from the device. Stop using the device until the glass is replaced by qualified service personnel.
- Do not try to disassembly your tablet. This may damage the device.
- Operate your device in a place where temperature is between -20°C and +50°C. Operation between -20°C to -10°C will result in limited performance.
- Charge your device with the recommended charger in a place where temperature is between 0°C and +60°C. Please note that charging speed is reduced at higher temperatures.
- Store your device in a place where temperature is between -20°C and +60°C. Please note that battery storage requires special handling, so please check the comments about battery safety.
- This product is equipped with USB-C connector, intended to be supplied by certified power supply capable of providing 5V-15V according to USB spec.
- For charging the socket-outlet shall be installed near the equipment and shall be easily accessible.
- Protect your device from water and moisture intake. Keep connector doors closed when not in use to prevent water and moisture intake.
- Listen to a headset at a moderate level, and do not place the device loudspeaker outlets near your ear when the loudspeakers are in use.
- Use only soft, clean and dry lint-free cloth to clean your device.
- Keep the unit and accessories away from small children.
- Switch off your device before boarding to an aircraft.
- Switch off your device in any area with a potentially explosive atmosphere.
- Your device meets guidelines for exposure to radio waves (SAR, Specific Absorption Rate) when kept in a close distance to your body.
- Power rating for the device: 7.6V 3.0A
- Use only charger delivered with your tablet.
- Do not disconnect charger by pulling the cord.
- Do not use damaged power cords or plugs.
- Save energy. You can save energy by doing following.
 - Close unused applications and data connections.
 - Decrease screen brightness and sound volume.
 - Deactivate unnecessary sounds like touch panel sound.
 - Disconnect your charger from mains outlet when charger is not needed.
 - Do not keep unnecessary accessories connected in your device

- Recycle. Return your used electronic units to dedicated collection points. Please note that your tablet has a battery, so it is not allowed to be disposed to normal household waste and battery requires separate recycling.
- Replaceable battery safety
 - Batteries have life cycles. If the time that the battery powers equipment becomes much shorter than usual, the battery life might be at the end. Replace the battery when a significant loss of run time is detected.
 - When batteries are stored over six (6) months, some irreversible deterioration in overall battery quality may occur.
 - Store batteries at half of full charge in a dry, cool place, removed from the equipment to prevent loss of capacity, rusting of metallic parts and electrolyte leakage. Do NOT store it at full charge, especially not in high temperature environments.
 - Do not store the battery for more than 1 month in environments with temperatures between 35°C to 60°C (≤90%RH).
 - Keep the device away from heat (battery temperature not to exceed 60°C).
 - Stop using the tablet if abnormal heat, order, discoloration, deformation, or abnormal condition is detected during use, charge, or storage.
 - Do not throw battery into fire, it may be exploded.
 - Do not soak the battery with liquid like water, tea, coffee etc.
 - Do not hit, bend, deform or drop the battery.
 - Do not pierce battery with a sharp object such as a needle, etc.
 - The battery should not have liquid from electrolyte flowing, but in case the electrolyte come into contact with eyes, don't rub your eyes. Wash your eyes well with clean water and go to see a doctor immediately. In case the electrolyte come into contact with your skin, wash it well with clean water.
 - Do not externally short-circuit the battery. If externally short-circuited, the battery may be heated, ignited or broken.
 - There is a risk of explosion if you replace the battery with an incorrect type. Only use the correct battery type for this device.
 - Dispose of battery needs to be done according to instructions above.

For EU Customers: All products at the end of their life must be returned to Pokini for recycling.
 For information on how to return the product, please go to: <http://www.pokini.de>.

Warning Statements

To prevent possible hearing damage, do not listen at high volume levels for long periods.

Antenna positions

Your device meets guidelines for exposure to radio waves (SAR, Specific Absorption Rate) when kept in a close distance to your body. It is recommended to learn the antenna positions (for WWAN devices only) as mentioned below and not to touch or bring your body close to these antenna areas. Antenna areas are highlighted in below pictures.

Conformity Declarations

Depending on the actual model, following conformity / compliance statements are valid. Please check the type label of your device for further information.

EU Declaration of Conformity

Pokini declares that the radio equipment Tab A8B/A10B is in compliance with Directive 2011/65/EU and 1999/5/EC or 2014/53/EU (2014/53/EU supersedes 1999/5/EC from 13th June 2017). The full text of the EU Declaration of Conformity is available at the following internet address: <http://www.pokini.de>.

CE -Marking and European Economic Area (EEA)

The use of WLAN's, for use throughout the EEA, have the following restrictions:

- Maximum radiated transmit power of 100 mW EIRP in the frequency range 2.400 - 2.4835 GHz
- 5.13 - 5.35 GHz is restricted to indoor use only

Bluetooth® Wireless Technology for use through the EEA has the following restrictions:

- Maximum radiated transmit power of 100mW EIRP in the frequency range 2.400 -2.4835 GHz

Länderzulassung für Mobilgeräte

Am Gerät sind behördliche Kennzeichnungen, die der Zertifizierung unterliegen, angebracht. Sie zeigen an, dass das/die Funkgerät/e für die Verwendung in den folgenden Ländern zugelassen ist/sind: Vereinigte Staaten, Kanada und Europa (1). Nähere Informationen über die Kennzeichnung für andere Länder finden Sie in der Konformitätserklärung von Pokini. Diese finden Sie unter <http://www.pokini.de>.

1 Europa umfasst: Österreich, Belgien, Bulgarien, Kroatien, Tschechien, Zypern, Dänemark, Estland, Finnland, Frankreich, Deutschland, Griechenland, Ungarn, Island, Irland, Italien, Lettland, Liechtenstein, Litauen, Luxemburg, Malta, die Niederlande, Norwegen, Polen, Portugal, Rumänien, Slowakei, Slowenien, Spanien, Schweden, die Schweiz und das Vereinigte Königreich.

Das Gerät unterstützt WLAN 5150-5350 MHz mit Einschränkungen für die Verwendung im Innenbereich..

FCC Compliance Statement

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/TV technician for help.
